

Pest Control Terms and Locations

All buildings will be treated on a monthly basis including but not limited to perimeters, water source areas, and any other areas deemed necessary to control pest population. Call-backs should be provided at no additional charge between services. Agreement shall be for one year with the option to renew for two additional years with approval of Baker County and awarded service provider. Bids should be submitted for the complete pest control of roaches, ants, fleas, spiders, silverfish and other certain inside pests and rodent control. All square footage information for buildings are approximate and not exact.
