Baker County Board of County Commissioners  
Baker County Project Number 2016-09  
Engineer's Project Number L160207BAK

**ADDENDUM #2**  
**CR 125 WIDENING AND RESUFACING**

## Questions:

1. The plans call for pipe (24" and 36") to construct cross drain extensions. Should there be a bid item for this work?  
This project was coming up over budget and one of the ways that we worked out making ends meet with the Baker County Road Department was to have the County provide all the cross-drain pipes to the Contractor. Please see the note on the left bottom of sheet 2 of the plans.  
The Contractor shall cut the pipe, construct collars, and install the pipe. The cost for this work shall be included in the cost of the MES or headwall.

*Per the Baker County Road Department, the bidding advertisement shall be extended one week. The new due date for bids will be Wednesday, February 1, 2017 at 2:00 PM and the public bid opening will now be Wednesday, February 1, 2017 at 3:00 PM.*
