RE: Bid Addendum #1
County Road 127 North – Phase 2
Baker County Project No. 2021-21

Eligible Bidders:

Please find attached with this correspondence a list of eligible bidders who attended the March 23, 2023 mandatory pre-bid meeting.

Question #1:

During the pre-bid meeting, it was asked if an asphalt emulsion would be required for the full-depth reclamation and if the plan specifications or FDOT Section 332 would apply.

Response #1:

The plans do not call for asphalt emulsion, foamed asphalt or Portland cement additives. Therefore, portions of the FDOT supplemental specification **Section 332 Full Depth Reclamation** that address these additives shall not apply. All other portions of Section 332 shall apply.

If you have additional questions, please transmit via email.

Sincerely,

TARBOX Consulting and Design, Inc.
