INTRODUCTION

The Baker County Board of County Commissioners (BOCC) identifies the County Manager as the Purchasing Agent responsible for coordinating the entire County's purchasing efforts. The County Manager may designate purchasing authority to the Board Secretary, Clerk of the Court, or Finance Director at his/her sole discretion. The Clerk of the Court's designated Finance Director (Finance Department) supports the Purchasing Agent in promoting efficiency, economy, and fair and open competition. These efforts reduce the appearance or opportunity for favoritism or impropriety and inspire public confidence that purchase orders and contracts are awarded equitably. It is essential for effective and ethical procurement to have a system of uniform procedures, utilized by all personnel, that establishes basic guidelines and procedures regulating procurement activities, contract management, and the resulting distribution of funds. The foremost objective of the BOCC is for departments to abide by, uphold, and adhere to the Purchasing Policies and Procedures and to guard against the misuse or misinterpretation of the procedures.

Administrative changes or processing procedure portions of this manual may be amended when required by changes in law or minor procedural changes (i.e. flow of documents) with the review and concurrence of the County Manager.

CODE OF ETHICS AND CONDUCT

The County believes in the dignity of its employees and the value of the services rendered by their governmental agency. The County strives to maintain high standards of ethics and conduct.

Public purchasing officials are required to maintain complete independence and impartiality when dealing with vendors, both in fact and in appearance, in order to preserve the integrity of the competitive process and to ensure public confidence that purchase orders and contracts are awarded equitably and economically.

Chapter 112, Part III, Florida Statutes, Code of Ethics for Public Officers and Employees governs ethics and conduct relative to purchasing and is included by reference in the Purchasing Policies and Procedures.

DUTIES AND RESPONSIBILITIES

County Manager and the Finance Department

- I. The County Manager is responsible for developing and administering the purchasing program for the BOCC.
- II. The Finance Department will assist BOCC operations in the procurement of goods and services.
- III. The Finance Department reviews all purchases and invoices for adherence to policies and procedures, proper accounting, and overall quality of supporting documentation.
- IV. The Finance Department has full authority to question the quality, quantity, and kind of items requested for purchase in order that the best interests of the County may be served.

County Departments

- I. County departments are responsible for following the Purchasing Policies and Procedures.
- II. County departments are responsible for determining that sufficient budget funds are available for all expenditures.
- III. County departments are responsible for timely review and approval of all invoices prior to submission to the Finance Department.

GENERAL PURCHASING POLICIES

- I. It is the intent of the BOCC to provide all vendors, (with the exception of those on the Florida Department of Management Services Convicted Vendor List, per Section 287.133(3)(d), Florida Statutes) with a fair and impartial opportunity in which to compete for the BOCC's business. Vendor preferences will be awarded only as stated within these policies and procedures.
- II. County staff shall not issue any payment(s) or contract(s) to any vendors currently involved in litigation or arbitration with Baker County until such time as a satisfactory resolution is reached with such vendors; however, the BOCC may, in its sole discretion, award payment(s) or contract(s) to such vendors.
- III. Payments for purchases made in the current fiscal year must be allocated to the current fiscal year's financial records so long as delivery of the goods or performance of the services is completed prior to the end of the fiscal year, October 1st of every year.
- IV. It is the responsibility of the department that was awarded any grant funding to identify and to transmit to Finance Department any special purchasing requirements or provisions and to ensure that the requirements are followed.
- V. Section 112.313, Florida Statute, prohibits public officers and employees from accepting gifts at any time, other than advertising novelties. Employees must remain impartial to all suppliers and shall not conduct any BOCC transactions from which they may personally benefit.
- VI. All procurement records shall be retained and disposed of by the County in accordance with the records retention guidelines and schedules established by the State of Florida.
- VII. It shall be a violation of the Purchasing Policies and Procedures for any officer, employee, or agent of the BOCC to order the purchase of any goods (materials, supplies, or equipment) or professional or contractual services, or to make any contract contrary to the provisions of this manual, and the BOCC shall not be bound thereby.
- VIII. Purchases, orders, or contracts that are subdivided to circumvent the Purchasing Policies and Procedures shall be considered unauthorized purchases.

This authority will be limited to \$15,000; any requirements above that level will be considered by the BOCC at a special called meeting or regular meeting. An emergency purchase must meet the definition of “emergency” as defined in this manual.

“On-call” contracts - If an “on-call” contract is being utilized; three quotes will not be required. If more than one vendor has been awarded the “on-call” contract for the same type of work, quotes from all “on-call” contractors will be required.

Quote and bidding exemptions - Sole source purchases, purchases of standardized equipment, and purchases of goods for product testing are exempt from the three-quote requirement and competitive bidding requirements, provided the purchases have been pre-

approved by the County Manager. See each respective section within these policies and procedures for details.

TYPES OF FORMAL SOLICITATIONS

There are four different types of formal solicitations which include Invitations to Bid (ITBs), Requests for Proposals (RFPs), Requests for Qualifications (RFQs), and Requests for Information (RFIs). The formal solicitations generally require similar procedures:

An **Invitation to Bid (ITB)** is a written solicitation for competitive sealed bids containing the title, bid due date, and hour of the public bid opening. ITB specifically defines the goods or services for which bids are sought. ITBs must specify the requirements clearly, accurately, and completely. Unnecessarily restrictive specifications or requirements that might unduly limit the number of bidders are prohibited. The County Manager is ultimately responsible for approving the specifications before going to bid. ITB specifications should contain the following elements in addition to any special rules or other forms or notices required by the BOCC or Florida Statutes:

- I. Physical, chemical, or electrical description of the item to be purchased.
- II. Dimensions, tolerance, and performance expected.
- III. Reference to a sample, if any, as an example of the quality expectations. Be careful to avoid identifying a specific brand or manufacturer.
- IV. Specifications must clearly identify the quantity or estimated quantity to be furnished by the vendor.
- V. Time and place of delivery should be included in specifications if possible. If the vendor cannot deliver within a specified time period, specifications should be written which allow the BOCC to cancel the bid and select the next lowest vendor.
- VI. If alternative bids are to be considered, all details must be included in the specifications.
- VII. Bid price requiring a “net delivered price” or “no separate charges for delivery” or other hidden cost.
- VIII. Official bid sheet and sample contract documents are to be included in the bid package.
- IX. If trade-in(s) are involved, the appropriate information must be included in the bid package.

ITB Procedures:

- County will advertise the ITB twice in a local newspaper of general circulation for at least two consecutive weeks.
- Advertisement may also be made in professional or trade publications as determined by the County.
- Federally funded projects will be advertised at a minimum of three (3) weeks.

The ITB responses will be due and opened not less than thirty (30) days after the first public advertisement. If advertising in a professional or trade publication, then the due date and opening shall be not less than thirty (30) days after the publication officially is circulated.

All ITBs shall be awarded to the lowest priced responsible/responsive bidder.

A response, or lack thereof, to an ITB does not qualify or disqualify a vendor nor give future advantage to a vendor.

A **Request for Proposal (RFP)** is a written solicitation for competitive sealed proposals containing the title, proposal due date, and hour of the public opening. The RFP is used when the agency is incapable of specifically defining the scope of work for which the goods or service is required and that a qualified vendor propose goods or services to meet the specifications of the solicitation document.

RFPs shall state the relative importance of price. All RFPs shall be awarded to the highest scored responsible/responsive vendor. RFP specifications shall include any of the following:

- I. General information
- II. Applicable laws and rules
- III. Functional or general specifications
- IV. Statement of work
- V. Proposal instructions
- VI. License requirements
- VII. Evaluation criteria
- VIII. Details regarding the goods or services required
- IX. Pre-bid conference
- X. Contract
- XI. Bonds (if appropriate),
- XII. BOCC insurance requirements,
- XIII. Special rules, and any other forms or notices required by the BOCC or Florida statutes.

RFP Procedures:

- The County will advertise the RFP twice in a local newspaper of general circulation for at least two consecutive weeks.
- Advertisement may also be made in professional or trade publications as determined by the County.
- Federally funded projects will be advertised at a minimum of three (3) weeks.

The RFP responses will be due and opened not less than thirty (30) days after the first public advertisement. If advertising in a professional or trade publication, then the due date and opening shall be not less than thirty (30) days after the publication officially is circulated.

A response, or lack thereof, to an RFP does not qualify or disqualify a vendor nor give future advantage to a vendor.

A **Request for Qualifications (RFQ)** is a procurement approach which places greater emphasis on the actual qualifications and licensure of the potential contractor, his or her track record, rather than how well the potential contractor responds to detailed project specifications and requirements. All RFQs shall be awarded to the highest scored responsible/responsive vendor. A RFQ is used when goods and services are expected to be required from time to time throughout the course of the year or other specific time frame (e.g. grant period); the BOCC is unable to accurately define ahead of time the specific quantities of goods and services expected; the BOCC is unable to compile detail specifications or detail specifications are not appropriate; and the services are not a professional service as defined by Section 287.055, Florida Statutes.

RFQ specifications should include descriptions of the goods or services required, the duration of the expected requirement, the vendor qualification criteria, bonds, contracts, and pre-proposal conference, BOCC insurance requirements, special rules, and any other forms or notices required by the BOCC or Florida Statutes. The services for which this procedure can be used include, but are not limited to, the following:

- I. Medical services - medicine, psychiatry, dental, hospital and other health fields;
- II. Financial services - bond counsel, rating and underwriting, financial advisor, and investment services;
- III. Appraisal services - real and personal property appraiser;
- IV. Consultants - planning, management, or scientific advisors; and
- V. Construction contractor services - general, builder, or residential.
- VI. Federally funded projects are subject to The Brooks Act: Federal Government Selection of Architects and Engineers, in accordance with Public Law 92-582 related to professional services as described in the Formal Solicitations for Professional Services section of this manual

RFQ Procedures:

- The County will advertise the RFQ twice in a local newspaper of general circulation for at least two consecutive weeks.
- Advertisement may also be made in professional or trade publications as determined by the County.
- Federally funded projects will be advertised at a minimum of three (3) weeks.

The RFQ responses will be due and opened not less than thirty (30) days after the first public advertisement. If advertising in a professional or trade publication, then the due date and opening shall be not less than thirty (30) days after the publication officially is circulated.

A response, or lack thereof, to an RFQ does not qualify or disqualify a vendor nor give future advantage to a vendor.

A **Request for Information (RFI)**, while not a procurement category, is an important tool used to increase knowledge about goods or services and their availability and capability. An RFI should be used when the department is not knowledgeable about the current good or service and wants to be educated on any “state-of-the-art” services or equipment within the subject area. An RFI cannot be awarded; it’s simply used to gather information to develop a more detailed specification or to determine budgetary prices.

Request for Information (RFI) Procedures

County will issue an RFI based on the department’s request which shall provide:

- I. a description of the good, service, or a narrative of the end goal that is desired by the division/department,
- II. any recommended specifications that may be available, and
- III. identification of possible vendors.

RFI Procedures:

- The County will advertise the RFI twice in a local newspaper of general circulation for at least two consecutive weeks.
- Advertisement may also be made in professional or trade publications as determined by the County.

CONSTRUCTION BIDS

Small Construction Projects

For the purpose of this procedure, “small projects” shall mean those construction projects to construct or improve a public building, structure, or other public construction works that are estimated to have construction costs not more than \$200,000

The BOCC shall automatically waive all other quotation and bidding procedures for small construction projects.

Local preference will be considered, exception federally funded projects.

Architect/ Engineer - The County may use the services of an architect/engineer, or may utilize other services as appropriate to develop, if needed, the project plans and specifications and construction schedules.

Qualification of Contractors - The County shall take steps to assure that responsible contractors perform construction and subcontractors found to be satisfactory to the County. The Contractors shall be subject to be able to prove their financial ability to carry on the work until first such time as he receives his first payment, and to finance the work between payments until the contract is completed and accepted.

Quotes - When available, a minimum of three qualified Subcontractors or suppliers shall be invited to submit a verbal or written quotation for each division of the project. (All quotes in excess of ten thousand dollars (\$10,000) shall be followed by a written quote.)

Quote Evaluation and Award - The Purchasing Agent will prepare a quote tabulation. The County reserves the right to negotiate with the lowest responsible and qualified bidder for each bid to reach the best possible price for the work to be performed. The County may, at its sole option reject any and/or all quotes. Rejected quotes may lead to the following action:

- Re-quote original scope
- Revise scope and re-quote
- Sole source negotiations

Once the County has made a determination of a selected contractor, subcontractor or supplier, the County will present the bid results to the BOCC for award if over \$10,000.

County Project Manager - The County shall appoint a Project Manager to administer the project on behalf of the County. The Project Manager may be a regular County employee or may be an individual or firm retained on a contractual basis.

Financial Records - The County shall keep detailed financial records on all small projects performed or administered on a “self-administered” basis. The records shall fully track the actual expenditure made with the budget established for the project.

All purchasing conducted for small projects shall be conducted without favor or prejudice to any party. In all solicitations, communications and evaluations, the highest standard of professionalism and integrity shall be maintained to promote fair and equitable treatment of all persons involved in the procurement conducted for these projects.

Large Construction Projects

- I. Large construction bids in excess of \$200,000 shall comply with the formal bid procedures as described in this manual. Additional requirements listed below may also apply:
- II. Surety Bond - In accordance with Section 337.17, Florida Statutes, a surety bond is required for a construction contract when the minimum bid is more than \$150,000, which shall not exceed 10%. The BOCC requires each construction contract Surety Bond to be in the amount of 5% of the total contract price.
- III. Payment and Performance Bond - In accordance with Section 255.05, Florida Statute, a payment and performance bond is required in the amount of 100% of contract price when the minimum bid is more than \$200,000 for constructing public buildings. Qualification of contractors must comply with provincial, state, and local guidelines.
 - a. If the project is less than \$200,000 and requires a Payment and Performance Bond, it will be stated in the specifications. These bonds will be maintained, and currency validated by the Department. Awardees will provide all applicable certifications/licensing requirements during the bid process.
- IV. All contractors bidding on road projects are required to be pre-qualified with the Florida Department of Transportation and with the Baker County Public Road Department as a pre-requisite to the bid on BOCC road projects.
- V. Warranty Clauses -

All facilities/infrastructure projects will require at least a one-year warranty period from the date of substantial completion for the project, or subset, to the end of the warranty. Special goods or equipment such as HVAC, generators, etc., will carry the normal manufacturer's warranty, in addition to the one year for installation. In general, warranties will be required as per the AIA Contract Document, A201-007, or most current equivalent.

All road and other horizontal projects will require at least a two-year warranty period from the date of substantial completion. In certain instances, up to a five (5) year warranty will be required when using new technologies or materials.

Large Construction Bid Procedures:

- If the project is more than \$200,000, the County will advertise the construction bid once in a local newspaper of general circulation at least 21 days prior to the bid opening, and at least 5 days prior to any pre-bid conference.
- Advertisement may also be made in professional or trade publications as determined by the County.
- Federally funded projects will be advertised at a minimum of three (3) weeks.

FORMAL SOLICITATION PROCEDURES FOR PROFESSIONAL SERVICES

Section 287.055, Florida Statutes, references the acquisition of professional architectural, engineering, landscape architectural, or surveying and mapping services exceeding ten thousand dollars (\$10,000).

Professional services within the scope of the practice of architecture, professional engineering, landscape architecture, or registered surveying and mapping, as defined by the laws of the state, or those performed by any architect, professional engineer, landscape architect, or registered surveyor and mapper in connection with his or her professional employment or practice must be processed through competitive bid. Additionally, a legal ad must be published **twice** during that timeframe in a local newspaper.

The Board of County Commissioners, to avoid creating a conflict of interest, shall prohibit professional service firms from representing opposing sides of an issue under consideration.

Because price differentials may only be a minor consideration compared to the quality of the professional's work, the following types of professional services will be acquired through competitive negotiations:

- I. Legal services - attorneys and legal professionals;
- II. Accounting services (not including auditors); and
- III. Architecture, professional engineering, landscape architecture, or a registered land surveying as defined by Section 287.055, Florida Statutes;
- IV. Audit services (be procured pursuant to Section 218.391, Florida Statute).

Competitive Negotiation Procedures

- I. The department shall submit to the County Manager a complete RFP or RFI describing the services required, bonds, contracts, pre-proposal conference, insurance, etc., in an electronic format.
- II. Written criteria shall be stated in the RFP setting a uniform evaluation process for all proposals. Criteria shall include, but not be limited to, the ability of the firm's proposed professional personnel; whether a firm is a certified minority business enterprise; past performance of the firm on similar projects; willingness to meet time and budget requirements; location; recent, current, and projected workloads of the firms; and the volume of work previously awarded to each firm.
- III. After the RFP/RFI opening, the Selection Committee shall proceed pursuant to Section 287.055(3), Florida Statutes.
- IV. However, for legal services or accounting services, the Selection Committee may proceed with ranking and negotiations at its discretion with less than three firms, if it deems this to be in the best interest of the BOCC.

SELECTION COMMITTEE POLICIES AND PROCEDURES

Submittals resulting from a formal ITB, RFP, RFQ, or RFI shall be evaluated by a Selection Committee. The Selection Committee's purpose is to review the bid/proposal to ensure that the proposal complies with the written specifications and to make recommendations on awards to the County Manager and the BOCC. The Selection Committee is made up of employees of the BOCC and generally consists of a minimum of two (2) members: the department director requesting the goods or services, and either the County Manager, Finance Director, or Board Secretary.

Required public notice(s) shall be given before any Selection Committee meeting. All notices shall be posted in clear public view and will be included in the ITB, RFP, RFQ, and/or RFI solicitations.

All Selection Committee meetings are open to the public per Sunshine Law requirements; however, the public may not participate in the evaluation process.

Any member of the Selection Committee members shall recuse themselves from the evaluation process if a conflict of interest exists between themselves and an employee or officer of the prospective bidder or proposer.

After the completion of formal solicitation evaluations, the Selection Committee shall recommend to the County Manager award to a specific vendor or reject all solicitations. Recommendations for award are posted on the website.

SOLE SOURCE PURCHASES

Purchases of goods or services exceeding \$2,000 which are available from only one source, or sole brand, must be approved by the County Manager (or designee). A sole source is the only existing source of the item(s) that meet the need(s) of the requesting department as determined by a thorough analysis of the marketplace addressing all options. A request for a proprietary item does not justify sole source procurement if there is more than one potential vendor for the item. The requesting department may negotiate with a sole source supplier under the following circumstances:

- I. The needed good or service is available from only one source/brand;
- II. The good or service is wanted for experimental trial or testing;
- III. Additional goods or services are needed to complete an ongoing task with the vendor;
- IV. A good or service is purchased from, or a sale is made to, another unit of government;
- V. The item is a component or replacement part for which there is no commercial distributor;
- VI. Compatibility is the overriding consideration; or
- VII. The item is a used item, which is subject to immediate sale.

PURCHASE ORDERS

The department forwards the quotes to the Finance department for review. The Finance department will review and issue a purchase order. Once the purchase order has been issued, the department may place the order.

Blanket Purchase Orders

Reoccurring purchases from the same vendor, which are easily predicted and measurable based on historical trending, may qualify for a blanket purchase order. Blanket purchase orders should be used in instances when there is a continuing need for small dollar goods or services and where it is not practical to establish a continuing contract for the good or service.

Once a blanket purchase order has been issued, normal invoice procedures will apply. Blanket purchase orders will be closed at the end of each fiscal year. Departments will be required to submit a new request for a blanket purchase order at the beginning of each fiscal year if it is needed.

Purchase Order Changes

A change to a purchase order requires a purchase order change order if a change is necessary to correct errors, omissions, discrepancies, and/or to make monetary increases. Purchase order change orders shall not be used to avoid ANY standard purchasing procedures established within the Purchasing Policies and Procedures.

A purchase order change order **is not** necessary when making a decrease or cancelling a purchase order. To decrease or cancel a purchase order, the requesting department must send an email to the Finance Department with the following information: purchase order number, current purchase order amount, decrease amount, new purchase order amount, and the reason for the decrease or cancellation.

Purchase Order Change Order Authorization

The BOCC must approve all purchase order change orders unless they fall into one of the following categories:

- I. **Non-monetary change**
The County Manager can approve a purchase order change order when the purchase order change order is only changing a vendor's name, account number, or location address, no matter the dollar amount.
- II. **Monetary change within the original contract amount**

The County Manager shall present to the BOCC for approval any non-contractual change orders to the purchase order that causes the total purchase price to exceed \$10,000.

Invoices

An invoice is acknowledging the receipt of goods or services. It is the responsibility of each department to inspect goods received for quality and to ensure proper quantities are received prior to submission of an invoice for payment.

The Florida Prompt Payment Act was passed by the legislature in special session, to ensure that vendors who provide goods and services will receive payment for those goods and services in a timely manner. Invoices that remain unpaid after forty-five (45) days are subject to an interest penalty payment at the rate of one percent (1%) per month that is accrued on unpaid balances. With respect to each past due payment, interest would cease to accrue after interest on the payment has accrued for twelve (12) months. The forty-five (45) day period begins from:

- I. The date on which a proper invoice is received by the department; or
- II. In those instances where a proper invoice is not received by the department:
 - a. The date which the rental or lease period begins; or
 - b. The date where the BOCC and the vendor agree to payment terms via contract.

The BOCC is exempt from payment of sales and local use tax. The BOCC's tax exempt certificate number is to be given to all vendors to avoid payment of state and local use taxes.

Invoice Procedures

- 1) All Invoices should be mailed to attention to the Finance Department.
- 2) The requesting department will verify the accuracy of the goods or services received and stamp the invoice with the "Goods Received" stamp on the front of the invoice.
- 3) The department director will sign in the stamped area and forward to the Finance Department.

Upon receipt of the invoice, Finance Department will conduct a review to ensure the following:

- 1) Funds are available;
- 2) All invoice requirements are met; and
- 3) The invoice matches all contract or Purchase Order terms and conditions (if applicable).

Invoices that do not meet the requirements will be returned to the department for correction.

DISPUTES

The Comptroller and the County Manager may disagree on whether to authorize a purchase for various reasons. In these instances, the Comptroller and the County Manager shall do their best to come to a resolution on said matter or consult with the County Attorney. However, if the matter cannot be resolved at this level, it may be presented to the BOCC at a regular agenda meeting.

PIGGYBACK PROCEDURES

The method of providing additional purchasing options is common practice in the public purchasing community and offers significant benefits. The use of comparable purchasing agreements allows the BOCC to "piggyback" on other governmental contracts. The additional purchasing option may provide favorable pricing and reduce the costs associated with preparing specifications and issuing invitations to bid. To "piggyback" is a procedure of procuring goods or services without formal bid procedures via utilizing other public entity's contract award of an ITB or RFP.

Allowable Piggyback Bids:

- 1) The "piggybacked" bid should not have been awarded more than eighteen (18) months prior to "piggyback."
- 2) The award will be in accordance with all the terms and conditions, prices, time frames, and other criteria as included in the ITB. Changes to terms and conditions, etc., are not allowed.
- 3) It is recommended that the BOCC department representative contact the other entity to determine that the item conforms to what is needed by the BOCC and additionally, to determine if they would recommend "piggybacking" off the award.

The following is required to be part of the procurement package and submitted to the BOCC for approval:

- I. A full copy of the entity's formal solicitation;
- II. Vendor's price sheet;
- III. Vendor's authorization on letterhead to identify permission and offering to honor the same prices, under the same terms and conditions as indicated in the formal solicitation, (an email will be accepted) to the BOCC;
- IV. Allowance for "piggybacking" by other entity on their letterhead to Baker County; or copy of piggyback clause contained in the entity's ITB or RFP.
- V. Notification of the entity's award, Copy of purchase order or contract;
- VI. BOCC insurance requirements compliance;

Only purchases can be "piggybacked"; sale or trade-ins must be handled separately.

"Piggybacking" is not permissible on federally funded projects administered through the Local Agency Program (LAP).

Cooperative Purchases

Cooperative purchase agreements involve arrangements between two or more governmental entities to share contracts for the purchase of goods or services under the same contract. This is accomplished by including in their respective bid documents language notifying bidders that any response to the invitation for bid constitutes a bid made under the same terms and conditions for the same price to other governmental agencies. A copy of the cooperative bid shall be furnished to the BOCC for award if over \$10,000.

BID PROTEST PROCEDURES

Any bidder opposed to a recommended decision on any formal solicitation award must file in accordance with the process stated within the formal solicitation document, a written notice of intent to file a protest, within seventy-two (72) hours (excluding Saturdays, Sundays, and legal holidays), after the posting of the formal solicitation tabulation. The initial notice of protest shall clearly state the facts and laws upon which the protest is being based. Failure to state the basis of the protest shall be just cause for the protest to be rejected according to the formal solicitation protest procedure.

Following the filing of the notice of intent to file a protest, the bidder must submit a written formal solicitation protest within five (5) workdays.

The formal written protest shall contain the following:

- I. BOCC's formal solicitation number and description as advertised.
- II. Name and address of company or person filing the protest.
- III. A clear statement of the grounds for the protest (applicable statutes, ordinances, laws, etc.).
- IV. Specifically request the relief to which the protestant deems itself entitled.

The County Manager will review the formal solicitation protest, evaluate the facts, and attempt to resolve the protest in a manner that addresses the interests of all parties.

In the event the formal solicitation protest cannot be resolved by mutual agreement, the County Manager will present the protest to the County Attorney with a recommendation for resolution of the protest. The formal solicitation protester will be notified in writing of the final findings.

All formal solicitations shall contain a paragraph describing the County's bid protest procedures.

LOCAL PREFERENCE

For procurement secured through competitive sealed bids or quotes, local preference will be given to the lowest responsive and responsible Local Business when its bid or quote is within five percent (5%) of and does not exceed by more than \$250,000 the lowest responsive and responsible bid or quote submitted by a non-Local Business. With these and other contributing factors, the Board of County Commissioners reserves the right to award a bid which would be in the best interest of the County or reject all bids.

Local preference shall not apply to the following:

- (a) goods or services provided under a cooperative purchasing agreement or piggy-back;
- (b) contracts for professional services subject to the Consultant's Competitive Negotiations Act (Section 287.055, Florida Statutes);

- (a) Is the principal place of the Local Business within Baker County, Florida?

Builder’s Risk Insurance is not required for additions or renovations that will alter and/or add to an existing permanent structure.

This waiver of subrogation requirement shall not apply to any policy that includes a condition specifically prohibiting such an endorsement, or voids coverage should the contractor enter into such an agreement on a pre-loss basis.

Right to Revise or Reject - The BOCC reserves the right, but not the obligation, to review and revise any insurance requirement, not limited to limits, coverages and endorsements based on insurance market conditions affecting the availability or affordability of coverage; or changes in the scope of work/specifications affecting the applicability of coverage. No Representation of Coverage Adequacy - The coverages, limits or endorsements required herein protect the primary interests of the BOCC, and these coverages, limits or endorsements shall in no way be required to be relied upon when assessing the extent or determining appropriate types and limits of coverage to protect the contractor against any loss exposures, whether as a result of the project or otherwise.

Certificate(s) of Insurance - The contractor shall provide Finance Department with a COI clearly evidencing that all coverage, limits, and endorsements required herein are maintained and in full force and effect. A minimum thirty (30) day endeavor to notify due to cancellation or non-renewal of coverage shall be identified on each COI. When notified by the BOCC, the contractor agrees not to continue work pursuant to this contract, unless all required insurance remains in effect. The BOCC shall have the right, but not the obligation, of prohibiting the contractor from entering the project site until a new COI is provided to the County evidencing the replacement coverage.
